Three Dog Logistics

Three Dog Logistics is the main issue solver via the post office and package industry. They help customers beat strategic obstacles and decrease postage costs through inventive reasoning, resources, and innovation. Three Dog Logistics gives a full suite of mail coordinations and bundle arrangements with one shared objective: to enable businesses to save money on postage, shipping, and related services. From commingling to tracking, outsourcing to global mailing, kitting and gathering product sample fulfillment.

THE CHALLENGE

After an extensive search through the search engines, Three Dog Logistics found ASAP Systems' Cloud-Based Inventory Management Software the best Solution for their inventory management issues.

The main purpose Three Dog Logistics opted for an Inventory Management System is the growing necessity to have real-time visibility of items in their facility. They decided to go through with a web-based system due to easy accessibility and convenience. Also, to assist them with inventory trends, stock on order and forecasting.

WHY CHOOSE US?

The Kitting/Assembly Feature, a top feature, was one of the deciding factors that prompted Three Dog Logistics' move to our Cloud-Based Inventory Management Software. The Kitting Feature, allows them to easily group multiple raw materials or components into one unit.

In addition, the highly configurable software allows them to make the necessary arrangements to adapt their daily routines and work processes made ASAP Systems an easy choice.

TANGIBLE BENEFITS

Three Dog Logistics was managing on a daily basis around 500 stock items. After implementing our Cloud-Based Inventory Management System they are able to handle over 1000 Stock items due to the Time saving our solution provided.

Three Dog Logistics experience constant changes in their business, and our Software easily met those changes with the highly configurable features.

IMPLEMENTATION

"The implementation process was a smooth process." Our Web-Based Inventory Management Software is a user-friendly system, that assisted Three Dog Logistics with their daily routines. Their daily routines consisted of receiving large quantities of inventory and the use of the Assembly Feature was very handy.

Our Software assisted Three Dog Logistics in saving 1-2h hours on their Daily Inventory Management process.

THE SOLUTION

ASAP Systems' Cloud-Based Inventory Management System served Three Dog Logistics with gaining maximum efficiency and accurate inventory data. Furthermore, expanding the capacity to handle more inventory items, growing their business and taking it to the next level. Our Inventory Management Software provided Three Dog Logistics with several of the online and Barcode-Based Inventory functionalities they requested. After implementation and training, Three Dog Logistics' Staff was able to effortlessly access all inventory data, and perform all transactions with ease and efficiency.
